EDUCATION

Master of Business Administration, May 2027

The University of Alabama, Manderson Graduate School of Business, Tuscaloosa, AL

Focus Area: Strategic Management

Bachelor of Science in Computer Science, May 2026

The University of Alabama, Tuscaloosa, AL

Focus Area: Computer Science | Minor: Mathematics | Honors College

GPA: 3.70/4.00

EXPERIENCE

AI Engineering Externship, January 2026-Current

Extern, Remote

- Develop modular AI-powered pipelines to process 200+ page mortgage documents, enabling automated data extraction and classification
- Implement OCR and parsing workflows using Tesseract, Paddle OCR, and PyMuPDF to transform unstructured files into structured, searchable datasets
- Build semantic retrieval systems with Llama Index to improve document search accuracy and accessibility
- Optimize extraction precision through chunk tuning and metadata filtering to enhance model performance on large-scale document sets

Information Technology Co-op, August 2024-December 2025

Mercedes-Benz U.S. International, Vance, AL

- Designed and deployed 5+ Microsoft Power Platform applications to centralize logistics and data across departments
- Automated business workflows with Power Automate and API integrations, reducing manual data entry time by 60%
- Developed Power BI dashboards to track operational metrics, enabling real-time decision-making for leadership
- Designed and presented cybersecurity training sessions for audiences of 400+, translating technical security concepts into actionable user behaviors
- Supported IT operations and security compliance through user access management and process documentation

Programming Instructor, May 2024-August 2024, May 2026-August 2026

ID Tech, Dallas, TX

- Mentored 40+ students in programming and debugging, improving coding proficiency and problem-solving skills

RELEVANT PROJECT WORK

Senior Design Project – CS PhD Student Data Collection Portal, January 2026-Current

The University of Alabama, Tuscaloosa, AL

- Apply Agile methodology, Git version control, and collaborative software engineering practices
- Integrate software skills across the full stack while employing documentation, version control, and ethical design
- Produce technical documentation and progress reports to align deliverables with client requirements

Power BI: License & Compliance Dashboard, Shipment Analytics for IT Co-Op, August 2024-August 2025

Mercedes-Benz U.S. International, Vance, AL

- Integrated Excel, SharePoint, SQL, and cloud data for real-time insights into operational metrics
- Applied advanced DAX calculations, drill-throughs, and slicers to optimize reporting efficiency
- Collaborated with stakeholders to define key performance indicators (KPIs) and automate executive reporting

PowerApps: SLA/PO Approval Workflow, Audit & Task Tracking Application for IT Co-Op, August 2024-August 2025

Mercedes-Benz U.S. International, Vance, AL

- Develop PowerApps solutions to digitize approval workflows, task tracking, and audit management
- Configure Power Automate notifications, SharePoint synchronization, and compliance logging
- Reduce processing time by 40% through process automation and iterative system improvements

LEADERSHIP EXPERIENCE & INVOLVEMENT

Women In Technology, Alpha Delta Pi Sorority (Member, Homecoming Chair), Sigma Alpha Lamda Honor Society

CERTIFICATIONS

Microsoft Applied Skills: Streamline Business Workflows with AI Chat, January 2026
